

CTS

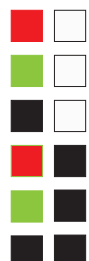

The CTS series comes with a whole new design concept which has true flat touch screen & slim edge. CTS also provides rich colorful bezel & casing for different choices.

The most important – The IP54 water-dust proof brings you the reliability & clean convenience. The CTS series are suitable for Food & Beverage and other applications.

Streamlined & Colorful

The streamlines and colorful frame of CTS makes it become the most desirable and stylish terminal system in the market.

SE/NOR

SENOR TECH CO., LTD.

- projective capacitive touch or full-flat resistive touch
- Color front bezel choices
- Capacitive power on switch
- Removable Hard Drive
- Ventless and Fanless
